Social Distancing Mats

The government currently recommends that you keep two metres away from people as a precaution, or one metre when you can mitigate the risk by taking other measures. To reinforce this message, we have introduced a range of Social Distancing message mats which can be used in workplaces to keep both your staff and visitors safe.

Heavy Duty Scraper Mat

Heavy-Duty Scraper mats act as an effective first line of defence in all weather conditions. These mats will reduce the grime and moisture that is brought into your building from mud, snow, sand and grit and are ideal for showrooms, reception or main entrance areas and warehouse areas.

Anti-Fatigue Mat

Anti-Fatigue mats act as an aid to relieve the physical strain that people who stand for long periods of time on hard surfaces experience. These mats are ideal for washrooms, kitchens, workshops and warehouses.

Standard and Personalised Dust Mats

Standard and personalised dust mats are ideal for showrooms, offices, washrooms, kitchens, workshops and warehouse areas. We offer a full range of customised image mats that are tailored to your company hours, logo and messages.

ECONYL®

ECONYL® regenerated nylon is 100% recycled yarn made of nylon waste such as fishing nets, fabric scraps and old carpets.

Through a radical regeneration and purification process, the nylon waste is recycled right back to its original purity. That means ECONYL® regenerated nylon is exactly the same as virgin nylon.

This means it can be recycled an infinite number of times, becoming the sustainable solution for the fashion and interior industries.

“Create visible safeguards with our Dust Control Mats and Social Distancing Mats”

Create your own customised messages on your mats.

- Feature your company logo.
- Highlight products in public areas.
- Create a great first impression.
